CM Technology Inc

SATCOM Solutions

Core Competencies

CM Technology Inc (CMT) is a global service provider of satellite communication solutions. CMT offers teleport site design and construction, LEO tracking antenna systems, antenna installation and maintenance services, teleport lease agreements, and program management.

- Documented past performance and expertise in global antenna site identification, evaluation, and selection.
- Documented past performance of teleport design and construction.
- Documented past performance and experience managing ground station operations, including satellite command and control, data processing and storage, and telemetry tracking.

Differentiators

CMT's differentiation strategy focuses on providing numerous options, competitive pricing, on-time project delivery, and excellent customer service.

- Documented past performance in commercial real estate, gateway design, construction, and satellite antenna installation.
- Documented past performance of reducing initial capital expenditures through commercial land subleasing.
- CMT's established network with industry experts analyzes each customer's unique requirements to design satellite solutions to precisely match customer specifications.

Past Performance

- OneWeb: \$9.12M -10yr contract-Build and maintain satellite access portal in Petrolina, Brazil-(14) 3.7m LEO tracking antennas.
 - Joe Paciaroni-Director, Gateway Director
jpaciaroni@oneweb.net +1 303.961.0588
- Tyvak: \$246k-Sale Tracker 3700 antenna-Abu Dhabi antenna installation-3.7m successfully installed and commissioned.
 - Chris Shaffer-Mission Operations Lead
chris.Shaffer@tyvak.com +1 949.344.6157
- Knight Sky: \$103k (1) 6012 Ku Band Antenna with installation
 - George Knizewski, CEO
